- [gas and liquid analyzers](#)
- [moisture and gas analyzers](#)
- [CEMS, measuring organic compounds like DMAC in liquids](#)

[Draeger gas detection—Draeger’s patented sensors last 2-3 longer than competitors, have lower detection limits, better performance, and a much lower cost of ownership.](#)

Gas detector
calibration
service

[Gas detector calibration service](#)—we can offer calibration service for all brands, whether fixed or portable.

[FTIR gas analyzers can measure up to 45 gases simultaneously to ppb detection limits](#)

[E2S hazardous area horns, strobes, signaling devices](#)

- [Krohne- Coriolis, VA flowmeters, Magmeters, Vortex](#)
- [flow measurement of most liquids & gases,](#)

[NeoMonitors](#) – cross-stack/cross-pipe insitu TDLAS technology

[Shaw Moisture meters](#) – measuring moisture and dewpoint in gas processes

[Southland Sensing](#) – measure the O2 content for nitrogen blanketing applications on a reactor

THERMAL GAS *Systems* inc.

[Thermal Gas Systems](#)- refrigerant leak detection in chiller rooms

Perma Pure[™]
Breathe Easier. Be Healthier.

[Perma Pure](#) – sample conditioning

[Process Insights](#)
