FEATURED PRODUCTS AND MANUFACTURERS

Pepperl+Fuchs *Intrinsically Safe Mobile Devices*

*Intrinsically Safe
Mobile Computer*

Combines state-of-the-art technology with a flexible, modular head concept for diverse identification systems

*Intrinsically Safe Barcode
Scanner / RFID Reader*

Efficient solution for challenging scan operations in explosion-hazardous areas

*Explosion-Proof Tablet
Computer*

Large display, explosion-proof tablet, robust usability and computing power for outdoor use in any environment

*Intrinsically Safe
Smartphone*

For Zone 1/21 and Div 1/2, the next generation of rugged intrinsically safe smartphones for hazardous areas and harsh industrial environments

*Intrinsically Safe
Featurephone*

High performance, rugged solution made for harsh industrial environments, multiple frequency bands

Smart Glasses

Smart Glasses - smartphone solution, provides mobile workers with comprehensive information and communication within the work environment

Draeger *sensors*

- 2-3 times life span of competitor sensors
- Unique, patented electrochemical, catalytic, and infrared sensor technology
- Best performance and lowest cost of ownership compared to all other brands of sensors
- Fixed sensors are purpose built and designed to run 24/7/365
- Most competitors use portable sensors in their fixed transmitters

Shaw

Portable dewpoint meters, hygrometers and moisture analyzers

Portable Dewpoint Meters & Hygrometers

All Moisture Meters portable dewpoint meters and hygrometers are fully self-contained and combine robust construction advanced electronics

Inline Moisture Analyzers

Combine robust construction and advanced electronics to meet the requirements of a wide range of applications requiring continuous inline analysis at a single sample point

Dewpoint Transmitter

Designed with the operator in mind, for reliable and accurate measurements, the SHAW Model SDT and SDT-Ex are extremely easy to install and operate, requiring little or no maintenance

Sample System for Process Air or Gas Analysis

Shaw Moisture Meters Sample Systems are solutions for extracting and analyzing a representative sample of the process air or gas, which is then either vented off to atmosphere or returned back into the process line

Optris

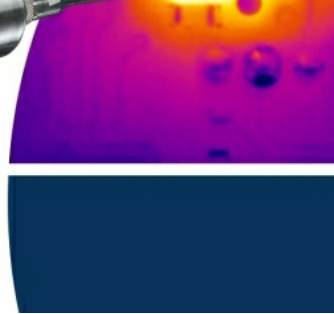

PI infrared Cameras - Precision Line & Xi series - The Compact Line

Hot spot

Xi SERIES

Spot finder IR cameras

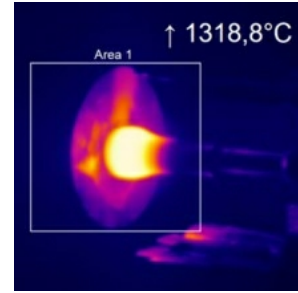

Infrared camera PI 640i

The thermal imager optris PI 640i is the smallest measuring VGA infrared camera worldwide

Xi 410: Compact industrial imager

The new compact infrared camera optris Xi 410 combines the benefits of infrared cameras and infrared thermometer

Xi series

The Xi series is a fusion of a rugged, compact pyrometer and a modern IR camera
