E2S

Hazardous Area - Fire Industrial - Wide Area Signaling

- Up to 80% less power draw, allows for more devices on the same power supply
- Long life LED Strobes & Beacons (2,000 + Hours)
- Purpose built - engineered and designed to be hazardous area products, not modified non-hazardous area products
- No need to purchase synchronization modules (as with competitors) - same models on the same circuit will self-synchronize
- Quick Delivery - most units are stocked in the Houston, TX facility
- No additional costs for voltage requirements, lens colors, enclosure colors and some special materials
- Approval Ratings for IECEx and ATEX, Class I, Div. 1 & 2 and Class II, Div. 1 & 2. Zener barriers can be included. Devices have multiple international approvals
- SIL 2 rated
- Standard warranty is 10-years

Draeger Regard series controllers *PLC functionality without programming!*

- The Regard 3000 and 7000 series of controllers offer PLC-like function with touch screen set up - no programming required
- Master-less architecture - each module in the controller has its own power supply, so if one module malfunctions the rest of the controller continues to operate.
- Modules with faults can be "hot swapped" without interrupting system operation
- Patented HART tunneling allows for remote configuration of transmitters from the control panel
