

PHARMA/BIOTECH MARKET LINE CARD

[Draeger gas detection](#) Draeger's patented sensors last 2-3 longer than competitors, have lower detection limits, better performance, and a much lower cost of ownership

- [PPB level detection](#) without the expense of consumable tape.
- [Draeger Flame detection](#) Unique, patented visual flame detection
- Other technologies – IR3, UV/IR – have known false alarm issues, and can be blinded by smoke and humidity (particularly in outdoor applications)

[Ametek – moisture and gas analyzers for process gases, gas analyzers for emissions](#)

NEO Monitors

[Neo Monitors – insitu cross-pipe gas analyzers for process and emissions](#)

THERMAL GAS *Systems* inc. [Thermal Gas – refrigerant monitor](#)

[E2S – hazardous area horns, strobes, lights](#)

[Process Insights](#)
